Thanks to Allah the Almighty who enables us to complete this teaching material for Advanced English D3 Nursing. Teaching English as a Foreign Language in Indonesia faces many obstacles. Firstly, English is not day to day used so the students have difficulty to practice it. They only use it in the limited time classroom, so teachers have difficulty to make authentic situation for the students to practice the language outside the class. Second obstacle is the students' bad experiences during their previous schooling in learning English. The students come from different school background; some remote school may not have good teachers, especially in teaching English. Even some students have bad impression that make them hate English. The last thing is teachers still have problem to access updated book, journals, etc. to help them teach English better.

This book is to help both teachers and students to enjoy the process of teaching and learning. Materials given are mostly authentic from internet or medication information. The authenticity of the material can give additional motivation for the students, so they can apply it as day to day conversation in the nursing settings or in their future workplace. The material in this book also can become references in doing translation, social and professional conversation, journal reading, scientific writing, and presentation ability.

The writers would like to say thank you very much to The Rector of University of Muhammadiyah Banjarmasin, The Dean of Faculty of Nursing and Health Sciences, and The Head of Nursing Diploma Program for the full support of making this book. Furthermore, we thanks the institute of research and community development (LP2M) University of Muhammadiyah Banjarmasin for the constant helps. Our gratitude also goes to all of the colleagues and students at University of Muhammadiyah Banjarmasin for their help, encouragement and interest, so we can finish this teaching material.

Especially, we would like to thank the Ministry of Research, Technology and Higher Education for the funding. It was really helpful, so we could compile this book. For further information please contact us.

Banjarmasin, July 2018
